Description
Superglass Handy Pack 44 is a lightweight, non-combustible glass mineral wool insulation roll. The flexible roll is perforated at 2x570mm & 3x380mm widths to allow for easier handling due to the shorter roll length and lighter weight.

Application
Superglass Handy Pack 44 is primarily used as thermal insulation in new and existing lofts/cold roofs. However, it can be used in a number of other applications including suspended timber ground floors. When used in the loft/cold roof it can be installed between and over the joists.
Thermal Performance
Handy Pack 44 has a declared thermal conductivity of 0.044 W/mK.

Fire Performance
All Superglass products are deemed non-combustible and have a fire classification of A1 (the highest possible rating) when tested to BS EN 13501-1 Reaction to Fire.

Environment
• Zero Ozone Depletion Potential (ODP) & zero Global Warming Potential (GWP).
• Generic BRE Green Guide Rating of A+.

Recycled Content
All Superglass products are manufactured from up to 84% recycled glass which would otherwise go to landfill.

Certification
• Designation Code = MW-13162-T1.
• A copy of the Handy Pack 44 Declaration of Performance (DoP) ref: DOP0009 can be downloaded from the Superglass website.

Associated Products
Multi-Roll 40 | Multi-Roll 44

Vapour Resistance
All Superglass products offer negligible vapour resistance allowing vapour to pass freely through the insulation.

Handling & Storage
All Superglass products are easy to handle, cut and install. The products are supplied compression packed in polythene to provide short term protection only. For long term protection, the product must be stored indoors or under a waterproof covering in order to protect from weather damage. The products should not be left permanently exposed to the elements.

Standards
Manufactured in accordance with:
• BS EN 13172: 2012 Thermal insulation products - Evaluation of conformity.

Quality
All Superglass products are manufactured in accordance with BS EN ISO 9001:2015 - Quality Management Systems (QMS).

Durability
All Superglass products are non-hygroscopic, will not rot, degrade or sustain vermin and will not encourage the growth of mould, bacteria or fungi.
