Superwall 32 Cavity Wall Batt
Typical application: External masonry walls

Description

Superglass Superwall 32 is a British Board of Agrément (BBA) approved, non-combustible and water repellent glass mineral wool insulation cavity wall batt. The flexible batt is supplied at 455mm wide to allow easy installation between standard vertical wall tie spacings and minimum on-site cutting and waste.

Application

Superglass Superwall 32 is designed to provide thermal insulation in full or partial fill in new external masonry cavity walls, up to 25 metres in height for full fill and without restriction for partial fill, in new buildings of a domestic and non-domestic nature (additional requirements apply for buildings above 12 metres in height for full fill and above 25 metres in height for partial fill). Superwall 32 is BBA approved for use in all UK exposure zones (subject to conditions detailed in the BBA Certificate and NHBC Standards).

BRE Green Guide Rating
Superglass Superwall 32 has a generic BRE Green Guide Rating of A+.

Fire Performance
Superglass Superwall 32 has a fire classification of A1 (the highest possible rating) when tested to BS EN 13501-1 Reaction to Fire.

Thermal Insulation
Superglass Superwall 32 has a thermal conductivity of 0.032W/mK.

Recycled Content
Superglass Superwall 32 is manufactured from up to 84% recycled glass.

Easy & Quick To Install
Manufactured to allow for quick and easy installation.
Superwall 32 | Characteristics

**Thermal Performance**
Superwall 32 has a declared thermal conductivity of 0.032W/mK.

**Fire Performance**
All Superglass products are deemed non-combustible and have a fire classification of A1 (the highest possible rating) when tested to BS EN 13501-1 Reaction to Fire.

**Environment**
- Zero Ozone Depletion Potential (ODP) & zero Global Warming Potential (GWP).

**Recycled Content**
All Superglass products are manufactured from up to 84% recycled glass which would otherwise go to landfill.

**Standards**
Manufactured in accordance with:

**Quality**
All Superglass products are manufactured in accordance with BS EN ISO 9001:2015 - Quality Management Systems (QMS).

**Water Resistance**
Constructions incorporating the product and built in accordance with the Standards listed in section 4.4 of BBA Certificate 89/2231 Product Sheet 3, will resist the transfer of precipitation to the inner leaf and satisfy the national Building Regulations.

**NHBC Standards**
In the opinion of the BBA, Superwall 32 Cavity Wall Batt, if installed, used and maintained in accordance with BBA Certificate 89/2231 Product Sheet 3, can satisfy or contribute to satisfying the relevant requirements in relation to NHBC Standards, Chapter 6.1 External masonry walls.

**Durability**
All Superglass products are non-hygroscopic, will not rot, degrade or sustain vermin and will not encourage the growth of mould, bacteria or fungi.

**Vapour Resistance**
All Superglass products offer negligible vapour resistance allowing vapour to pass freely through the insulation.

**Handling & Storage**
All Superglass products are easy to handle, cut and install. The products are supplied compression packed in polythene to provide short term protection only. For long term protection, the product must be stored indoors or under a waterproof covering in order to protect from weather damage. The products should not be left permanently exposed to the elements.

**Certification**
- Designation Code = MW-13162-T2.
- A copy of the Superwall 32 Declaration of Performance (DoP) ref: DOP0002 can be downloaded from the Superglass website.
- Superwall 32 is BBA certified for all UK exposure zones. See certificate number 89/2231: Product Sheet 3 for more details.
