**Superwhite 34 Blown Insulation - Cavity Wall**

Typical application: New-build masonry cavity walls

---

**Description**

Superglass Superwhite 34 is a high performance, non-combustible and British Board of Agrément (BBA) approved glass mineral wool blown cavity wall insulation. Superwhite 34 has a 25 year guarantee.

**Application**

Superglass Superwhite 34 is designed to provide thermal insulation for new build masonry cavity walls with a minimum cavity width of 90mm and up to 12m in height. It can be installed in buildings of 12m – 25m in height subject to a satisfactory inspection of the wall construction and installation approval by Superglass Insulation. Superwhite 34 is BBA approved for all UK exposure zones (subject to conditions detailed in the BBA Certificate and NHBC Standards). Superwhite 34 may also be used in party walls and is a component in a number of Robust Details Solutions including proprietary system E-WM-33.

**Installation**

Superglass Superwhite 34 is installed after the walls are built, from inside the building. It’s installed quickly and easily in any weather using existing machinery by a national network of Superglass and BBA approved contractors.

---

**BRE Green Guide Rating**

Superwhite 34 has a generic BRE Green Guide Rating of A+.

**Fire Performance**

Superwhite 34 has a fire classification of A1 (the highest possible rating) when tested to BS EN 13501-1 Reaction to Fire.

**Thermal Insulation**

Superwhite 34 has a thermal conductivity of 0.034W/mK.

**Recycled Content**

Superwhite 34 is manufactured from up to 84% recycled glass.

**Efficient Installation**

Installation is quick and easy in any weather by our network of Superglass & BBA approved contractors.
**Superwhite 34 | Characteristics**

For an installed density of 25kg/m³ the following coverage should be obtained per bale.

<table>
<thead>
<tr>
<th>Cavity Width (mm)</th>
<th>Coverage (m²/bale**)</th>

**Thermal Performance**
Superwhite 34 has a declared thermal conductivity of 0.034W/mK when tested to BS EN 14064-1: 2010 (Lambda 90/90).

**Fire Performance**
All Superglass products are deemed non-combustible and have a fire classification of A1 (the highest possible rating) when tested to BS EN 13501-1 Reaction to Fire.

**Environment**
- Zero Ozone Depletion Potential (ODP) & zero Global Warming Potential (GWP).
- Generic BRE Green Guide Rating of A*.

**Recycled Content**
All Superglass products are manufactured from up to 84% recycled glass which would otherwise go to landfill.

**Standards**
Manufactured in accordance with:
- BS EN 14064-1: 2010 for in-situ formed loose-fill mineral wool products

**Quality**
All Superglass products are manufactured in accordance with BS EN ISO 9001:2015 - Quality Management Systems (QMS).

**Durability**
All Superglass products are non-hygroscopic, will not rot, degrade or sustain vermin and will not encourage the growth of mould, bacteria or fungi.

**Water Resistance**
When the product is properly installed in accordance with BBA Certificate 14/5086 Product Sheet 2, it will resist any water transfer across the cavity to the inner leaf.

**Vapour Resistance**
All Superglass products offer negligible vapour resistance allowing vapour to pass freely through the insulation.

**Handling & Storage**
All Superglass products are easy to handle, cut and install. The products are supplied compression packed in polythene to provide short term protection only. For long term protection, the product must be stored indoors or under a waterproof covering in order to protect from weather damage. The products should not be left permanently exposed to the elements.

**Certification**
- CE Marked to BS EN 14064-1: 2010.
- Designation Code = MW14064-1.
- A copy of the Superwhite 34 Declaration of Performance (DoP) ref. DOP0020 can be downloaded from the Superglass website.
- Superwhite 34 is BBA certified for all UK exposure zones. See certificate number 14/5086: Product Sheet 2 for more details.

**Guarantee**
Superwhite 34 has a 25 year guarantee.

**Associated Products**
Superwhite 40
